Support:  [Truck Navigator 7.0 \[DE\]](#) |  [Truck Navigator 7.0 \[EN\]](#) |  [Installation Guide \[DE\]](#) |  [Installation Guide \[EN\]](#)

Update-Version for older Fleet/Truck Navigator-versions.

**New in Version 7.0 (21.11.2011):**

- Improved graphical design
- Option to "Avoid toll roads" [only PC/PDA]
- Self-learning vehicle profile [only PC/PDA]
- Faster address-search
- Map data 2011.2N

**New in Version 6.5 (13.03.2011):**

- ADR restriction codes for tunnels
- Display of low-emission zones
- Display of roll-on/roll-off terminals and RoLa terminals
- Transfer of off-road routed possible (Guided Navigation)

- Improved routing performance
- Map data Q2/2010

**New in Version 6.0 (26.07.2010):**

- Numbered motorway exits
- Realistic motorway signs and junction views
- Revised navigation interface
- Show other vehicles (buddies) via interface
- Map data Q4/2009

**New in Version 5.5 SP2 (06.12.2009):**

- Map data Q2/2009

**New in Version 5.5 (11.10.2009):**

- Radar warner (More than 16.000 stationated radars in Europe. 1 year free updates included)
- TTS (Text-to-Speech) Engine
- Coordinate-input
- Global search for POIs
- Speeding warner for trucks
- Turnover manoeuvres can be avoided on constructional not seperated roads on a higher level
- Guided Navigation (Import complete routes from eg. Map&Guide Professional)
- Road Editor (Truck attributes can be edited on the map with Map&Guide Professional 2009 or calculate 2009)

**New with version 5.2 (25.02.2009):**

- Map data Q2/2008
- Windows Vista support
- PayTMC support (on request. Project based)
- 18 languages

**New with version 5 (03.10.2008):**

- The vehicle profile can be changed at any time. So the navigation does recognize the right restrictions for the actual conditions (eg. full loaded drive and not loaded drive).
- You can get warnings when driving into danger zones like extreme curves, tree overhangs, pitches, etc.. - Driver can decide how much he wants to avoid side roads and city throughpassing. - Turnover manoeuvres are avoided on constructional not seperated roads.
- Navigation recognizes when starting point and end point are in restricted areas.
- Speed warning in many countries.
- Automatic smart zoom for optimal map information when approaching manoeuvre points. - Direction display of highway signs - Automatic change of day- and night-view possible
- Improved and updated maps

**Included maps :**

- Central Europe City (D,A,CH)
- Major road network in Europe

**Scope of Supply :**

- PTV TruckNavigator 7.0 DVD (includes PDA/PC program and all maps)
